HOME FOR HOMELESS

On 28th our unit started our dream project "home for homeless". More than a project it's a dream of our unit, Maggivaragees was a resident of Akkikavu. Due to heavy rain and wind her house was completely destroyed. She was the only member in that house. Her son had left her alone in that house, Our unit had taken this opportunity to fulfill her dreams.

We have formed a group, it includes volunteers from different branches, we contributed fund from peoples around the city. Many peoples have given some amount by hearing her situation. We have bought material for the construction and we build the house by ourself. Labour works are done by our volunteers by the presence of panchayath members. After the work our volunteers were honoured by panchayath president panchayath members.

HONOURING RCET FOR “HOME FOR HOMELESS”

Having a home is blessing and donating a home to the needy one is the responsibility of a human. Keeping this in mind, We the NSS Volunteers of Unit 143 ignited with the aim of providing a home for the homeless. In-order to honor our efforts, The President of KADANGODE Grampanchayath and Panchayath member handed over the key of rebuiled home of Ms.Maggi, Who lived in Akkikkavu. The ceremony was conducted at NSS KarayogaMandiram and it was a pleasure for each one of us and it was a wonderful experience.

LAB MAINTENANCE

The NSS unit of RCET stepped into lab maintenance. We choose RCET's mechanical lab on 11/09/18. Usually all the lab equipment were used to check in each month by lab technicians, but this month it was carried out by our NSS unit. We observed the lab condition and corrected the lubrication of equipment. The maintenance was lead by Mr. Abhilash who is our Lab technician with our NSS team of 20 members. We could reduce an amount of around 1lakh as service cost. This was one of our successful works. This attempt made us to being helpful for limiting management expenses for college maintenance purposes.

SEPERATION OF PLASTICS

We know that plastics are the main enemies of our environment. The removed of plastics from our surroundings helps to attain an eco friendly environment. As a part of this our NSS Unit decided to collect plastics and to export it for recycling process. The collected plastics were handed over to Paristhithi Samrakshana Sangam at Kadangod Panchayath. On 29 th September, almost all of our volunteers had went to there for the separation of

plastics that were collected from our college and Kadangod Panchayath. The programme was began with an inspirational speech by district coordinator of Paristhithu Committee Mr Shaji. Later, we separated all the plastics according to its grades. The separated plastics were exported to Bangalore for remaining recycling process. In this way, NSS Unit of RCET became a part of making an eco friendly environment.

OPERATION RESCUE FLOOD

RCET NSS unit 143 conducted "operation rescue" on 17-8-18, Friday at Ponnani. The natural calamity has badly affected the locality in the form of heavy rain and flood. Indeed an urgent rescue is necessitated to overcome. NSS unit members incorporate with other local people rescue mission is initiated. Literally it was very hard time and fully adventurous. Rescue started at around 11:00 am and continued up to 6:00 pm evening. Refugees has to be completely evacuated from their homes to nearby camps. Refugees including patients, weak people and old ladies are carried on canoes. Some of them are not ready to leave at first by misunderstanding the situation, then we made them conscious about upcoming difficulties and hazardous situations to be faced.

The rescue team includes almost all of our NSS Volunteers. At the beginning we rescued a handicapped man with his wheel chair by providing necessary medical assistance. Also a group of ladies who had mentally depressed by losing their shelter and physically not much able to move through water is rescued to camps and made them comfortable by providing inhabitant atmosphere and satisfying their basic needs including food and accommodation. Further rescue was done by those who are talented in the swimming, fortunately every one of us are good in swimming.

Then our team accomplished mission by evacuating four houses. Then after we cleared the place at 6:00pm and return back to our hostel.

QUIZ COMPETITION AS A PART OF KERALA PIRAVI

Kerala Piravi marks the birth of the state kerala in India. The state Kerala was created on Novemeber1 , 1956. Kerala was formed long after Indian Independance on 15th August 1947.

Kerala called "God's Own Country" as very special culture and green beauty. This beauty should be reminded due to the commitment of every Keralites towards our state.

Considering the importance of this day, the NSS Unit conducted a quiz competition for students in RCET College. The knowledge about the birth place is essential to depict our commitment. This programme has the objective of convincing the importance of the Kerala Piravi among the students. It encourages the students to get a deep information about the history, and that as governing legacy of our state "Kerala".

Competition was held at the college itself. This event was great success.

OZONE DAY

The ozone day is celebrated on 16th September worldwide to make every person aware about the importance of ozone. The ozone layer acts as a protective layer for the earth from harmful UV radiation, but this layer is now depleting for which was the main reason for the green house which are mainly released by certain machines including refrigeration, air conditioner and also from the smoke of vehicles, exhaust gases etc. from this it is clear that, humans are also responsible for the releasing of greenhouse gases due to the excess usage of the above mentioned reason.

So it's is very important to make people's aware of the ozone layer and how important is it to protect it from depletion.

The NSS UNIT has written charts, including awareness topics and quotes and that was published in front of the college at different parts, so that the students get aware of this ozone layer and the importance of ozone day. This program conducted by the RCET NSS UNIT was appreciated and it was another success.

SURVEY AT PUNNAYURKULAM

Keralites were leading a peaceful life till the rainy season of 2018. But towards the mid of the years , Keralites came towards the most hardest time of their life, Which was in the form of flood , Because of the flood many people lost their lives, livelihood, relatives etc. So remodeling activity started in Kerala.

As a part of this, our NSS Volunteers has also made their effort in process. The rehabilitation work started on 26th August and were continued till 29th August. After 29th August the service was changed to PUNNAYUKULAM. This place is also part of the affected places in Thrissur District. The Volunteers surveyed about the conditions of the affected homes of that locality. During the survey many information were noted such as damaged homes, home appliances, electrical materials etc. Finally the report was collected from the Volunteers send to the locality and then it was reported back to Grampanchayath member of the locality. The process continued till 1st September. We hope we have done our maximum in-order to gain their properties back and the Volunteers were happy for the work they have done for the society.

SNEHATHANNEER

Water is considered to be as an elixir of every living being. During summer days we all may be deprived of this, especially for birds. So nss unit of royal has implemented the project named 'SNEHATHANNEER' as a relief for the birds from these hot climate. In this we have placed water inside a pot which being hanged on a tree. We know a small quantity of water can withstand ones life. So this project will be useful for each and every birds species in and around of our college.

Nowadays every birds are being moving from one point to another in search of these basic necessity. So because of this project they are being able to get all these within our

surrounding itself. And placing these water pots over the trees could make them more warmth as well as getting pure oxygen.

SOCIAL RESEARCH SOCIETY(SRS)

An online exam was conducted by the SRS on 21st July 2018. SRS is a project under former technical officer Mr. Jabbar. This community helps the growing engineers to be aware about the open opportunities and was helpful for the NSS volunteers as it help them to work as a socially aware engineer.

On 21st July 2018, Certificates was distributed among the students under SRS and another online exam was conducted for the coming juniors. The certificates were distributed by Mr. Jabbar itself and many students attended this program

The NSS Unit has supported the event as the Volunteers have written the names and other details in every certificate, directed every student to the rooms and has also provided refreshments for everyone who has attended the program under the SOCIAL RESEARCH SOCIETY. Almost all the Volunteers have actively participated in making this event a grand success and providing a great support to the SRS team under the former technical officer of the NSS Unit Mr. Jabbar

SWACHH BHARATH

Swachh Bharat mission (SBM) is a nation -wide campaign in India for the period 2014-2019 that aims to clean up streets , roads and infrastructure of India's cities, towns and rural areas. The objectives of Swachh Bharat include eliminating contamination of water and environment through the cleaning process held on household and community owned properties. This programme was initiated to bring up the society with a mind of cleanliness. A clean Environment is a duty of every human being. This awareness should spread among the all nation and thus the India would be the cleanest country. The cleanliness habit of society depict their character and influence the nature greatly.

Under this mission, the volunteers of NSS Unit conducted a cleaning programme in RCET College on 03-08-2018. Entire campus was cleaned by the NSS Unit. Part of the mission the students accomplished their duty towards the environment. Maintenance of this programme should be held by the campus and each student of campus should be responsible for this act.
