

REPORT

MASK MAKING PROGRAMME

Royal College of Engineering & Technology, in association with R-SAIL Club conducted a programme to improve mask making skill among staffs and this programme will also promote mask wearing awareness among the staff during this COVID -19 Pandemic situation. This program was conducted on 17th December 2021 for technical staff. The session was handled by Siji PV (Instructor EEE) and explained the cutting and stitching of the double sided mask. During this session staff interacted with their doubts. The session got very good feedback from staff.
