

Dept. of Applied Electronics and Instrumentation Engineering

In connection with RAIMS, Department of Applied Electronics and Instrumentation organized an interactive session on 10/02/2019 where an alumni of RCET, Mr.Jishnu of 2013-17 batch (Trainee, FCRI Kanjikode,Palakkad) , addressed the students of AEI. He shared his experiences and motivated our students to update themselves with the recent advancements in the field of engineering. Being an instrumentation engineer, he took sincere effort in convincing our students about the various possibilities and scopes offered by Instrumentation

He mentioned about the specialized training programmes offered by FCRI and the highly sophisticated techniques for Testing and Calibration of Valves, flow meters and other measuring instruments (as per ISO standards) provided by the company. He also told our students to utilize the opportunities provided by the company and take full advantage of the same.

Mr Jishnu showed great interest in clearing the doubts asked by our students regarding job opportunities in the field of instrumentation.

Before winding up the session he also mentioned about the importance of GATE score in recruitment process . All the students were told to start their preparation for GATE at the earliest so that they could crack the exam very well.

All the students were highly motivated after the session.
